Global Marketing Partners Announces Winner for the Most Innovative Technology Product at CES 2010

Woodland Hills, CA—Jan 11, 2010 - ([Virtual Press Office](#)) —[Global Marketing Partners](#), the nation's leading Channel Marketing and distribution enabler, announced the winner of the \$20K Channel Marketing and Distribution Deal for the most innovative technology product at CES 2010 this past Saturday, Jan 9, 2010. The announcement of the winner of the \$20,000 took place at the CES PartyList Wrap Party (<http://www.cespartylist.com>) in Paradise Palms, Las Vegas.

The final award winner, Facecake Marketing Technologies manufacturer of the FrameWizard (<http://www.framewizard.com>) won the award for the "Most Innovative Technology product of 2010 CES." The final winner was judged between a total of nine other finalists by a panel of industry experts on several different components, such as marketability, marketplace need, creativity, innovation, product differentiation and overall "wow" factor.

The FrameWizard takes your still photos and allows you to animate them for photo memories like never before. The FrameWizard transforms your ordinary 2-D photos still photos into magical 3-D moving memories. Global is looking forward to the partnership with Facecake Marketing Technologies. Global would like to Congratulate Facecake Marketing Technologies on their success in winning the "Most Innovative Technology product of 2010 CES."
