

Discover the Magic
Make Your Still Photos Move

Have you ever wanted to relive your most treasured memories? Now you can bring cherished moments back to life with **FrameWizard™** — the only digital frame that magically transforms still pictures into **Moving Memories™** with patent-pending software. Infuse your photo with seasonal or occasional atmosphere using **Element Effects™**, take your memory to a new locale with **Change of Scenery™** and design your own personalized border with **Matte Magic™** for a truly one-of-a-kind creation.

MOVING MEMORIES™

Imagine revisiting your fondest memories: your children smiling and laughing, waves rolling and crashing during a day at the beach, or even your wedding day. Now you can relive treasured moments with **Moving Memories™**. Transform photos of loved ones and days gone by into living, breathing, lifelike memories in motion!

ELEMENT EFFECTS™

Enhance your photos with enchanting moving **Element Effects™**. Create seasonal illusions like a winter snowfall or a swirl of autumn leaves, or make waves crash on the beach. For any occasion or holiday, **Element Effects™** also includes mood treatments like streaming confetti for a charming, festive touch.

CHANGE OF SCENERY™

Take your memory to scenic, exotic and fun new destinations with **Change of Scenery™**. Remove your existing background easily, and choose from stunning still backdrops, animated environments and even majestic moving panoramas. Upload and customize your own background photo for an extra special new setting.

MATTE MAGIC™

Matte Magic™ is the only software that allows you to customize and personalize your digital matte. Choose from themed designs in an array of hues, select shape and size, and even add text. Frame your photo with a border to reflect the occasion, or coordinate perfectly with your living space or office décor.
